The Science of Agriculture in the Virtual Classroom

Middle and High School Science Teachers

Six classrooms from across North Dakota are invited to participate in this virtual science project!

Interested? Please contact EduTech by September 9, 2009

Participation will be based on a first come, first served basis.

Teacher Name _____ School Phone _____

Email _____

School _____

School Address _____

Science Class _____ Grade _____

- **Participating classrooms will receive a \$400 stipend** to be used for purchasing resources/supplies associated with the project.
- **Participants will use various technology tools for communication and collaboration** among participants and ag experts. Tools may include h.323 videoconferencing, desktop videoconferencing and other web 2.0 tools such as blogs, twitter, texts, etc.
- **In order to adequately ensure the technical support and use of the tools needed to participate** in this project, all participants are required to submit a signed form from their administrators (see registration form)

To Register – please send completed teacher and principal forms to EduTech by September 9, 2009

**EduTech
415 Winter Show Road
Valley City, ND 58072**
